Below is a memo I received from Carmen Conklin, [C & W Rustic Hollow Shelter](#); Nashua, Iowa:

Hi. Some of you may be familiar with or already use the clumping natural Bentonite for your scoopable litter. I am emailing all of you, to let you know that if you are in Iowa, are a humane society, rescue worker or just have cats, there is a new distributor for Bentonite.

The bags are 50 pound bags and by the bag the cost is \$8.00 per 50 pound bag. If you buy a pallet of 64 the price is \$7.00 per bag (\$448.00)

It is the basis for most cat litters and it clumps very well. We use it in all our buildings and all you need to do is to scoop and add. We do of course, wash the litter pans weekly, or as needed, but with our many cats it is the best around.

The new distributor is a cat lover as well and basically got into the business so we could all continue to buy this product for our animals.

You can go to Bill's website at www.iowaponds.com or call him at 319-290-2724.

And NO, I am not getting a commission on this "free advertising". smile. I just really, really want to continue to be able to get Bentonite for our litter in all our buildings.

If you have any questions, you can email me or call Bill about the Bentonite. It is the most reasonable priced litter a shelter, humane society or anyone with multiple cats can get and it WORKS REALLY WELL.

Please feel free to forward this email to all your animal friends. I believe he will sell a half pallet as well. The product is available in Waterloo Iowa, so if you got his message and you are in a far away state.....you stopped reading awhile ago.

Take care and spread the word. Carmen Conklin, [C & W Rustic Hollow Shelter](#).
